| <b>Maximum Marks</b> | 3 Marks                                  |

### Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

#### Step 1: Submission Checklist

| S.No | Item to Submit                                                  | Submitted (Yes / No / NA) |
|------|-----------------------------------------------------------------|---------------------------|
| 1    | Complete source code (all files and folders)                    | Yes                       |
| 2    | README / Setup Guide (instructions to run the project)          | Yes                       |
| 3    | requirements.txt / package.json / dependency file               | Yes                       |
| 4    | Database schema / seed files (if applicable)                    | N/A                       |
| 5    | Environment configuration file (.env.example or similar)        | Yes                       |
| 6    | Deployed application URL (if hosted)                            | Yes                       |
| 7    | APK / Executable binary (if applicable for mobile/desktop apps) | No                        |
| 8    | Dockerfile / Containerization config (if applicable)            | No                        |
| 9    | Test files and test results                                     | Yes                       |
| 10   | Demo video or walkthrough (if required)                         | Yes                       |

## Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

EduGenie-Gemini-Learning-Assistant

```

|
|— static/
|   |— css/
|   |— js/
|   └─ images/
|
|— templates/
|   └─ index.html
|
|— main.py
|— requirements.txt
|— README.md
|— .env
|— .gitignore
|
└─ assets/
  
```

## Step 3: Deployment / Access Details

| Field                       | Details                              |
|-----------------------------|--------------------------------------|
| Hosted / Deployed URL       | <a href="#">Deployed URL</a>         |
| Login Credentials (Demo)    | No Login Required                    |
| Platform / Hosting Provider | Render                               |
| Repository Link             | <a href="#">Edu Genie Repository</a> |
| Demo Video Link             | <a href="#">Edu Genie Demo Video</a> |

## Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

### Pre-requisites

Python 3.10+

Internet Connection

Google Gemini API Key

Git

### Step 1

Clone the repository from GitHub.

### Step 2

Install dependencies:

pip install -r requirements.txt

### Step 3

Configure Gemini API Key in .env file.

### Step 4

Run the FastAPI application:

unicorn main:app --reload

### Step 5

Open the application in a browser.

### Step 6

Start using EduGenie features.

## Step 5: Known Issues / Limitations

| S.No | Known Issue / Limitation           | Workaround / Status       |
|------|------------------------------------|---------------------------|
| 1    | Internet connection required       | Active                    |
| 2    | Gemini API response may vary       | Normal AI behavior        |
| 3    | Response delay during high traffic | Managed by Render hosting |
