

## Project Demo Planning

|                      |                                          |
|----------------------|------------------------------------------|
| <b>Date</b>          | 30 september 2026                        |
| <b>Team ID</b>       | SWTID-2026-1758                          |
| <b>Project Name</b>  | EduGenie – AI Powered Learning Assistant |
| <b>Maximum Marks</b> | 1 Mark                                   |

### Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

| S.No | Demo Section               | Description                                                       | Duration (mins) | Responsible Member  |
|------|----------------------------|-------------------------------------------------------------------|-----------------|---------------------|
| 1    | Project Introduction       | Introduce EduGenie and explain project objectives                 | 2               | G.Vijaya Nooka Raju |
| 2    | Problem Statement          | Explain educational challenges addressed by EduGenie              | 2               | G.Vijaya Nooka Raju |
| 3    | Solution Overview          | Explain architecture, technologies, and workflow                  | 3               | G.Vijaya Nooka Raju |
| 4    | Live Feature Demonstration | Demonstrate Ask a Question, Concept Explanation, Quiz Generation, | 5               | G.Vijaya Nooka Raju |
| 5    | Deployment Demonstration   | Show GitHub repository and Render deployment                      | 10              | G.Vijaya Nooka Raju |
| 6    | Conclusion                 | Project summary and answer evaluator questions                    | 30              | G.Vijaya Nooka Raju |

### Demo Flow Summary:

| Step | Activity                         | Notes                                                                                           |
|------|----------------------------------|-------------------------------------------------------------------------------------------------|
| 1    | Introduction & Problem Statement | Discuss challenges faced by students in accessing personalized learning support                 |
| 2    | Solution Overview                | Explain EduGenie architecture, FastAPI backend, Gemini AI integration, and key features         |
| 3    | Live Feature Demonstration       | Demonstrate Ask a Question, Explain a Concept, Generate Quiz, Summarize Text, and Learning Path |
| 4    | Q&A Session                      | Answer questions and explain future enhancements                                                |
